

INFORMATION FOR HEALTH PROFESSIONALS

For Health Professionals

Dear Doctors,

Thank you for visiting our website! We have included a variety of materials which include information about our practice, hip diseases, knee diseases, as well as treatment options.

Most importantly, we would like to communicate our commitment to our patients, physician colleagues and other healthcare providers. We have an outstanding multidisciplinary healthcare team which is dedicated to providing comprehensive treatment for the diverse patient population afflicted with hip and knee disease.

Please do not hesitate to contact us if you have questions about our service, patient referrals or consultations.

Kind Regards,
David Slattery
